MODULE 9 – Legislation and data reliability	<p>LO4 (R012)</p> <p>Understand the factors to be considered when collecting and processing data and storing data/information</p> <p>Current relevant IT legislation, at time of delivery, its implications and applications 1, 2</p> <p>The importance of validity, reliability and bias when collecting and using data and information</p>	<p>Digital Society</p> <p>Bias</p> <p>Intellectual property law</p>	<p>Module 9 looks at the laws that govern the use data and computer systems. This is an aspect that is always changing as the law tries to catch up with the development of technology. • The laws that are relevant to the use and storage of data. • The laws that are relevant to a digital society, both in the creation and use of computer systems and products. • How to ensure that the data we access on a variety of digital platforms is correct and free from any bias or</p>	<p>http://www.ocr.org.uk/qualifications/vocational-education-and-skills/cambridge-nationals-information-technologies-level-1-2-j808/</p>	<p>This will be set on a by need basis. In order to consolidate learning and fluency of subject specific language.</p>
MODULE 9 – Legislation and data reliability Ethical issues	<p>LO4 (R012)</p> <p>Current relevant IT legislation, at time of delivery, its implications and applications 1, 2</p> <p>The importance of validity, reliability and bias when collecting and using data and information</p>	<p>Ethics</p> <p>Morals</p> <p>Bias</p> <p>Legislation</p>	<p>It is important that learners understand the different moral and ethical issues associated with the collection, storage and use of data/information. Learners must be aware of the impact of these issues on organisations and individuals, understanding how these can be mitigated against. Learners split into groups with each group being given an ethical/moral issue relevant to the use of information technologies. The learner groups could then create a presentation that would be delivered to the class</p>	<p>https://bigdata.ukdataservice.ac.uk/media/604711/big-data-and-data-sharing_ethical-issues.pdf http://www.gdrc.org/info-design/4-ethics.html https://www.weforum.org/agenda/2016/10/top-10-ethical-issues-in-artificial-intelligence/ http://www.techrepublic.com/article/10-ethical-issues-confronting-it-managers/ http://conflict.lshmt.ac.uk/page_13.htm#Ethical_Introduction https://study.cardiffmet.ac.uk/AcSkills/Documents/Research/Research_Ethics_lesson/page_22.htm</p>	<p>This will be set on a by need basis. In order to consolidate learning and fluency of subject specific language.</p>
MODULE 9 – Legislation and data reliability Validity, reliability and bias	<p>LO4 (R012)</p> <p>The importance of validity, reliability and bias when collecting and using data and information</p>	<p>Validity of information.</p> <p>Reliability of information.</p> <p>Bias in information.</p>	<p>The implications of validity, reliability and bias of data and information when collecting, processing and using internal or external data and information sources.</p>	<p>http://www.ocr.org.uk/qualifications/vocational-education-and-skills/cambridge-nationals-information-technologies-level-1-2-j808/</p>	<p>This will be set on a by need basis.
