Quadratic Equations and Graphs	<p>Simplify and manipulate algebraic expressions by expanding products of two binomials and factorising quadratic expressions, including the difference of two squares</p> <p>Identify and interpret roots, intercepts, turning points of quadratic functions graphically, deduce roots algebraically</p> <p>Recognise, plot, sketch and interpret graphs of quadratic functions</p> <p>Solve quadratic equations algebraically and graphically</p>		<p>Simplify and manipulate algebraic expressions by expanding products of two binomials and factorising quadratic expressions, including the difference of two squares</p> <p>Identify and interpret roots, intercepts, turning points of quadratic functions graphically, deduce roots algebraically</p> <p>Recognise, plot, sketch and interpret graphs of quadratic functions</p> <p>Solve quadratic equations algebraically and graphically</p>	<p>Square negative numbers</p> <p>Substitute into formulae</p> <p>Plot points on a coordinate grid in all four quadrants</p> <p>Expand single brackets and collect like terms</p>	<p>There will be a written piece of homework each week to assess learning.</p> <p>Videos and additional work can be accessed via www.corbettmaths.com</p> <p>www.keshmaths.org.uk</p>
Area and Volume	<p>Calculate exactly with multiples of pi</p> <p>Identify and apply circle definitions and properties</p> <p>Know and apply formulae to calculate area of triangles, parallelograms, trapezia, volume of cuboids and other right prisms</p> <p>Calculate the area/circumference of circles and use this to find arc lengths and angles and areas of sectors of circles</p>	<p>Perimeter</p> <p>Formula</p> <p>Segment / Arc</p> <p>Sector</p> <p>Cylinder</p> <p>Circumference</p> <p>Radius</p> <p>Diameter</p> <p>Pi</p> <p>Cone</p> <p>Sphere / Hemisphere</p>	<p>Calculate exactly with multiples of pi</p> <p>Identify and apply circle definitions and properties</p> <p>Know and apply formulae to calculate area of triangles, parallelograms, trapezia, volume of cuboids and other right prisms</p> <p>Calculate the area/circumference of circles and use this to find arc lengths and angles and areas of sectors of circles</p>	<p>Formula for calculating the area of a rectangle</p> <p>Know how to use the four operations on a calculator</p>	<p>There will be a written piece of homework each week to assess learning.</p> <p>Videos and additional work can be accessed via www.corbettmaths.com</p> <p>www.keshmaths.org.uk</p>
