www.tassomai.com

Dear Parent,

As part of the support being offered to all Year 9 and 10 learners, your child has been given a Tassomai account. These accounts have been provided at no extra cost to school to provide a supportive program to GCSE students. They have been given with the details required to set up their Tassomai account via Show my Homework form their class teachers. We would ask that students set up an account and actively engage with Tassomai to develop their recall and retention skills, which account for a large proportion of the GCSE examinations.

Tassomai is a trusted learning and revision tool to support your child through the stress of GCSEs and put them on the path to good grades. Tassomai makes learning and revising for GCSE Science as effective and as straightforward as possible. Pupils can see the revision topics they need to work through, they can see how they are getting on so far, and they can see what they should do next. It also organizes a daily routine, prioritizing each topic and subject based on progress so far and time remaining (i.e. the date of the exam). If pupils can progress through 80% of the course this revision is guaranteed to have a significant impact on their final results.

Please can you encourage your child to use Tassomai. They should be completing 4 daily goals each day, lasting approximately 15 minutes at a time.

Thank you for your continuing support.

Yours faithfully,

Mrs H Hacking
